

# Librarian Pain Assessment Tool

EBSCO  
Software as a Service

## Distress

Books on entire shelf pushed back

## Mild pain

Community isn't aware of our services and events

## Moderate pain

Someone is stealing paper from the printer

## Serious pain

Nobody is aware of the e-resources we provide

## Intense pain

Bacon used as a bookmark

## Severe pain

Patrons can't log in to access resources

## Unspeakable pain

Fill in your own:

Provide an optimal web experience on any device. Display your library's hours, location, upcoming events and social accounts. Staying connected to the community is easy with Stacks.

 Stacks

Utilize an advanced search platform to surface the most relevant information to patrons -from both electronic and physical resources. Enhance searching with features and functionality in *EBSCO Discovery Service™*.

 EBSCO Discovery Service

Enable seamless off-site and on-site access with one set of log-in credentials for all web resources and applications. There's no need for an IT department when you provide authentication services through OpenAthens.

OpenAthens
